BOOMSHAKALAKA

Wonderfully spacious, airy and modern, with a focus on an environmentally friendly design, M/Y Boomshakalaka was built by award-winning Italian shipyard Arcadia and delivered in late 2017.

Extremely spacious and comfortable, this semi-displacement yacht completed a major refit in 2020/21 including respray (hull, superstructure and roof), interior refurbishment and an upgrade to the solar panel system to increase capacity, allowing for a truly silent ship at anchor.

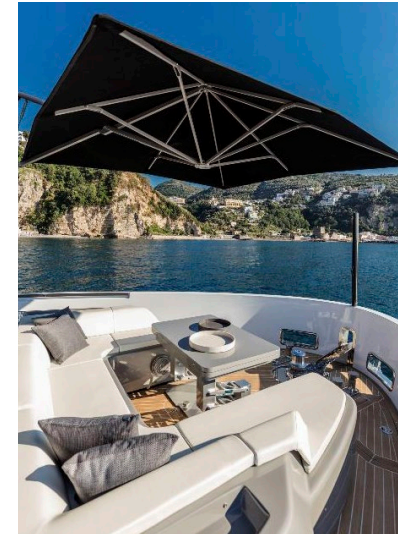

Her design is by Francesco Guida, who also completed the naval architecture and designed the interior. She is equipped with enhanced solar panels and high-calibre engineering, making her a very economical, ocean going

and environmentally friendly vessel, blending the luxury of a superyacht with leading-edge technologies for greener fuel efficient voyaging.

Timeless styling, beautiful furnishings and sumptuous seating feature throughout to create an elegant and comfortable atmosphere. She was designed with a focus on indoor/outdoor living resulting in a deckhouse made almost entirely of double-layered reflective glass, allowing natural light to fill the space. Sliding overhead blinds give privacy and shade when desired, while 16 underwater

lights provide an amazing scenery during night-time anchorages.

Her impressive open spaces and entertainment areas make her the ideal yacht for socialising and entertaining with family and friends. In addition to the formal dining area adjoining the salon seating, there is a huge outdoor area for al fresco entertaining and dining area on the aft deck, forward of the C-shaped seating and further dining and lounging areas on the bow, ideal for greater privacy when required.

Boomshakalaka can accommodate eight guests in four luxury cabins located on the lower deck, including a full-beam master suite taking advantage of the Arcadia 85's nearly 23.5-foot (7.2m) beam, with a full-width modern bathroom and huge walk in wardrobe to compliment this luxurious spacious suite.

There is a further large VIP stateroom and two generous twin cabins. All cabins are

bright and spacious due to her wide beam, and all have large high end ensuite bathrms plus independent AC and AV equipment. She is also capable of carrying up to four crew on board to ensure a relaxed luxury yacht experience.

Her large hydraulic swim platform hosts a 4.45m Williams Jet tender and the garage holds multiple Seabobs, two stand-up paddle boards, a kayak, diving gear and a compressor.

The garage can also hold a jet ski or a smaller tender with an easy launch and recovery crane operations.

Boomshakalaka has been maintained in pristine condition and looks good as new after a new paint spray and all Warranty works completed in 2020/2021. She also features zero speed digital fin stabilisers, ensuring a comfortable and relaxing cruising experience at all times.

Owner

1 large full beam Master suite with walk in wardrobe + bathroom and shower on the lower decks

Guests

1 Vip cabin, 2 twins, each with its own private bathroom on the lower deck

Crew

2 Double cabins with bunk beds and own bathrooms with shower

THE PRESENTATION VIDEO

BOOMSHAKALAKA

A white motor yacht is shown from a high-angle perspective, moving across a dark blue sea. The yacht is leaving a white wake behind it. In the background, a rocky coastline is visible, featuring a lighthouse on a small island to the right. The overall scene is set against a dark, moody sky.
